What is a 16V battery install kit?

Our 16V Battery Install Kit gives you the ability to switch from 16V to 12V on the fly. This ensures that you always have a backup plan.

Why should you use a 16V battery?

The 16V battery provides more clarity and voltage throughout the day. Additionally, the redundancy they create with the system is crucial when my career is on the line. This is another game changer in the marine electronics industry. Clean dedicated power for your marine electronics.

Do 16V batteries require a special charger?

Yes, 16V batteries require a special charger and are not compatible with 12, 24, 36 volt chargers, or any other chargers. We sell the required 16V LiFePo4 charger on our website. What is the importance of the 16V Battery Install Kit? Our 16V Battery Install Kit gives you the ability to switch from 16V to 12V on the fly.

Can a 16 volt battery be charged with a 12 volt charger?

The run and gun charger can only be run with a voltage regulator installed. This only applies to lowrance units, all other brands can handle the higher voltage when using charger. Yes, 16V batteries require a special charger and are not compatible with 12, 24, 36 volt chargers, or any other chargers.

Clean dedicated power for your marine electronics. Enhanced signal strength and returns, better clarity and run 20% more efficient than 12v systems. So your run times will be 20% longer on a ...

Designed to fit right over the battery terminals for the most contact area possible. Sold as a pair with all hardware needed to install.

Home of the original 16V marine battery. Lithium batteries designed for bass boats, deep v, golf carts, and RV'S.

Upgrade your power storage with our 100AH Lithium Battery Cabinet. Modular design for easy installation and suitable for various applications.
