-----  
What is a containerized wastewater treatment plant?

A containerized wastewater treatment plant is a wastewater treatment system that is fully integrated into a container. For uncomplicated and fast transportation, we use 10, 20 and 40-foot shipping containers in accordance with the international ISO standard for our KLARO container systems.

How many m<sup>3</sup> of wastewater can a containerized wastewater treatment plant handle?

We have experience with containerized wastewater treatment plants for up to 1,380 PE or 207 m<sup>3</sup> of wastewater per day. A wastewater treatment plant is only as effective and efficient as the installed system.

What is a containerized package plant?

Containerized package plants offer a portable, plug-and-play solution for water and wastewater treatment. They are ideal for remote locations, emergency response, or temporary needs, providing flexibility and convenience without compromising on treatment quality. PACKAGE PLANTS | CONTAINERIZED CONVENTIONAL TREATMENT PLANTS

What is a Biocell water containerised wastewater treatment plant?

Biocell Water containerised wastewater treatment plants offer a fast and effective above ground portable wastewater treatment system solution for any site, without the need for any existing infrastructure. Containerized mobile treatment systems are ready to use immediately on delivery and cater from 60 persons to 20,000 persons capacity.
