-----

With the laser integrated in Solarfold and a specially made tape measure, you can position and drill the drill holes for the ground anchor in no time. Just sink the anchor and spread it with the ...

With an experienced R& D team, we are able to design and manufacture solar power pods with superior performance and cost-effectiveness according to the specific needs of our customers.

With the laser integrated in Solarfold and a specially made tape measure, you can position and drill the drill holes for the ground anchor in no time. ...

While traditional stationary solar power systems are normally cumbersome to install and difficult to relocate, folding PV containers make use of innovative articulated panels ...

After predicting extreme weather conditions, such as high wind loads or snow, the entire module area can be folded up, secured on the central container floor and taken out of service within ...

This project constitutes a DC-coupled photovoltaic-storage integrated system, incorporating folding photovoltaic panels with energy storage functionality. It is designed for flexible grid ...

Mobil-Grid(R) 500+ solarfold is a 20 Feet ISO High Cube container, with CSC certification, which integrates a plug and play pre-wired deployable and redeployable solar plant

While traditional stationary solar power systems are normally cumbersome to install and difficult to relocate, folding PV containers make ...

Its portability and foldability make it ideal for temporary or emergency power needs, such as construction

sites, outdoor activities, military operations or disaster relief. In addition, ...

These are tailor-made energy systems that combine solar power generation with battery storage, engineered specifically for the unique demands of each site. Highjoule delivers personalized ...

Our Mobile Solar Container is available in version 20". It offers a vast solar area of up to 700m<sup>2</sup>. One person in 15 minutes. It is really that fast to prepare the container. It is especially useful in ...

We have deployed Solar Power Container units at three of our mines and the results have been outstanding. The ease of transportation and short installation time saved us weeks of downtime.
