---

At the highly anticipated 3rd Annual Product Innovation Day, CPS America unveiled a 20% price reduction on its 350kW 3-phase string inverter as well as 5MWh Battery Container products.

Adding Containerized Battery Energy Storage System (BESS) to solar, wind, EV charger, and other renewable energy applications can reduce energy costs, minimize carbon footprint, and ...

Whether you're integrating renewables, stabilizing your operations, or seeking cleaner alternatives to diesel, Enerbond's containerized energy storage solutions are built to ...

The construction site backup energy storage solution employs liquid-cooled battery PACK + liquid-cooled PCS design, which has good heat dissipation effect. It supports long-term 1C rate ...

It utilizes lithium batteries for energy storage, achieving 1P/1C charge/discharge and around 9000 cycles. In addition, the liquid cooled BESS can be deployed at constructions, mining and remote ...

It features a high-quality container enclosure pre-installed with a battery rack, allowing clients to integrate their own battery packs, cooling systems, fire suppression systems, and other ...

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

Compatible with photovoltaic (PV) integration, the system enables users to reduce electricity costs through smart energy management. For off-grid and backup applications, the IEB350kWh is ...

Ideal for use in renewable power plants. Powered by lithium-ion batteries, this portable product is ready to supply reliable power in challenging situations. It can work in island mode, as a hybrid ...
