Why should you choose UOP's modular refinery?

With fixed pricing and schedules, you can reduce risk and get to market faster, even in challenging scenarios. UOP's modular refinery is a complete solution, including: Log in to learn more and access downloads. Additional authenticated information upon request.

What is the world crude oil refining industry report?

This report is a complete source of information on the world crude oil refining industry. It provides country-level refinery information relating to existing and planned (new build) refineries such as insights and forecasts of refinery capacities, refinery complexity factor and comparison against peer group countries in the respective region.

What are modular refineries?

Modular refineries are pre-engineered, skid-mounted process units-- distillation towers, heaters, reactors, utilities -- fabricated in controlled yards and shipped in ISO-frame modules that bolt together like oversized Lego blocks.

Our process experience, combined with a pre-engineered approach, allows you to package select units into a refinery capable of processing 30,000 ...

The H10GP-M-30K40 delivers 30kW of solar generation and 40kWh of storage, housed in a 10ft mobile foldable container. Using high-efficiency 480W panels, it's engineered for mid-size off ...

Built specifically with military applications in mind, Corban Modular Refineries enhance strategic autonomy. Bases can produce their own fuel supply, remain operational during supply chain ...

The island oil refinery project exemplifies this need. Initially planned to house 500 workers, with expansion up to 1,500 workers in the coming months, the requirement for quickly ...

The Solarfold photovoltaic container can be used anywhere and is characterized by its flexible and lightweight substructure. The semi-automatic electric drive brings the mobile photovoltaic ...

Customised containers with galvanised steel frames, TOPCon N cells and other components are already installed in the containers and are ready to be deployed upon arrival.

Our process experience, combined with a pre-engineered approach, allows you to package select units into a refinery capable of processing 30,000 BPSD of crude. With fixed pricing and ...

In an oil market where capital prudence, emissions scrutiny and demand uncertainty now eclipse economies of scale, modular refineries offer a repeatable playbook: ...

The system is fully pre-assembled in a 40-foot container for ease of transportation. It requires minimal on-site setup, and all components, including inverters, batteries, and controls, are pre ...
