---

This versatile inverter charger offers dual AC inputs, true sine wave output, and adaptive charging, perfect for off-grid and grid-connected systems. Available now at Signature Solar.

Similar to the MultiPlus, the Quattro is also a combined inverter and charger. Additionally it can accept two AC input and automatically connect to the active source.

With a dual 100 Amp automatic transfer switch the Quattro will take care of switching loads from shore to inverter power. Up to 6 Quattros can operate in parallel to achieve higher total power ...

In the event of a grid failure, or when shore or generator power is disconnected, the inverter within the Multi is automatically activated and takes over the supply to the connected loads.

Similar to the MultiPlus, the Quattro is multi-functional and combines an inverter and charger. Its many features include a true sine wave inverter, adaptive charging, hybrid PowerAssist ...

This inverter charges batteries up to 140A<sub>dc</sub> from AC inputs such as shore power or generators, and it can utilize the battery's stored energy to power loads up to 10,000VA ...

Discover the power of Victron Quattro 48/10000 at Solar Sovereign. Find the best solar products and services for a sustainable energy future!

The Quattro 48/10000/140-100/100 is a powerful 48-Volt 10,000-Watt pure sine wave inverter with an adaptive 140A battery charger and two 100A AC inputs. The inverter's output is 120V AC.

Similar to the MultiPlus, the Quattro is also a combined inverter and charger. Additionally it can accept two AC input and automatically connect to the ...

The Victron Quattro 48/10000/140-100/100 is a highly versatile hybrid inverter/charger that intelligently combines a powerful 10000VA 48V pure sine wave inverter, a sophisticated 140A ...

Supports solar, utility, or generator power to charge the battery. It can flexibly schedule the Inverter charging and discharging time. With a dual activation function when the li ...
