---

High Energy Conversion Efficiency - Made of monocrystalline silicon and a variety of materials, ICECO 80W camping solar panels achieve 98% light transmission and can convert more solar ...

Sharp's NE-80EJE photovoltaic modules offer industry-leading performance, durability, and reliability for a variety of electrical power requirements using breakthrough technology ...

Weighing just 2.2 lbs with a foldable 12x9" footprint, this 80W solar charger features dual USB-A ports (5V/2.4A each) and IPX4 weather-resistant ETFE surface for hiking/backpacking essentials.

The GP-PV-80M Solar Module from Go Power! is a high efficiency monocrystalline solar module that provides outstanding performance and cost-effective solar power for residential, ...

Advanced glass and solar cell surface texturing allow for excellent performance in low-light environments. 100% EL test before and after lamination, and finished products EL ...

The GP-PV-80M Solar Module from Go Power! is a high efficiency monocrystalline solar module that provides outstanding performance and ...

Our range of solar panels are constructed from ultra-efficient polycrystalline and have been designed to provide a reliable and cost-effective alternative energy solution for applications ...

Weighing just 2.2 lbs with a foldable 12x9" footprint, this 80W solar ...

Find the exact solar panel size & weight in our 2025 guide. Our complete chart compares models by ft/cm and lbs/kg to help you plan your installation.

# 80W solar panel weight
