What is a folding container house?

The folding container house is a portable modular house that adopts a prefabricated design for easy transportation and quick installation. Sometimes called foldable or expandable container houses, these feature a steel frame with collapsible sides that can be folded during transportation and unfolded on site.

What are the different types of prefab container houses?

We offer all kinds of prefab houses, such as expandable container houses, foldable container houses, detachable container houses, and other kinds of prefab container houses. They can meet the needs of home, catering, office, hotel, hospital, etc. Our container house assembly is quick and easy, and it can handle a range of climates.

Are folding container houses a viable alternative to traditional construction?

Folding container houses are an affordable and sustainable alternative to traditional construction in the housing market. However, misconceptions about this home still appear.

What are construction site containers?

Construction site containers are durable, portable, and versatile steel structures used for storing tools, providing temporary offices, serving as break rooms, or WC containers on job sites. They offer weatherproof performance and come in various standard and custom sizes.
