---

The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations. Each container is equipped with a photovoltaic array, a battery ...

MEOX hybrid Off Grid Container Power Systems, built on the core framework of hybrid solar container systems for remote areas, combine DC coupling, VSG grid-forming, and intelligent ...

Our containers are designed to provide a turnkey solution for off-grid living or working, with all the features and amenities you need to live comfortably and sustainably.

MEOX hybrid Off Grid Container Power Systems, built on the core framework of hybrid solar container systems for remote areas, combine DC coupling, ...

Beyond mounting the solar panels on the roof of the container on delivery, NO wiring or assembly is required to have your own storage, living space or workspace ready in just a few hours.

With low start-up current, minimized cycling, and extended compressor lifespan, these units provide reliable cooling with optimal energy efficiency, making them ideal for both off-grid and ...

In this comprehensive guide, we delve into the workings, applications, and benefits of these revolutionary systems. Solar energy containers encapsulate cutting-edge technology ...

All-encompassing, fast, and resilient solution for disaster preparedness. A ready-to-install 2-3 kVA power module with 4-6 solar panels and lithium battery storage. Our turnkey water module is a ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

Among the innovative solutions paving the way forward, solar energy containers stand out as a beacon of off-grid power excellence. In this comprehensive guide, we delve into the ...

Many customers explore off grid solutions due to the simplicity and maneuverability of our containers. As long as a truck can get to the plot of land, we can drop your container.
