-----

With transmission lines at overcapacity and permitting delays slowing the development of new grid infrastructure, battery energy storage systems (BESS) have surged ...

Chile has taken a significant step in the development of clean energy with the inauguration of the largest battery energy storage system (BESS) in Latin America. This milestone marks a pivotal ...

Developer Atlas Renewable Energy has inaugurated the 800 MWh battery energy storage system (BESS) plant in Maria Elena commune, in the Antofagasta region.

Located in the Atacama Desert in northern Chile, this megaproject will have a total capacity of 2 GW of photovoltaic generation and 11 GWh of lithium-ion battery storage, ...

From ESS News Solar and energy storage deployment is booming in Chile, spurred on by supportive government policy that has been markedly stable for 15 years.

Chile is rapidly moving to build more power generation capacity, with much of that effort focused on renewable energy resources and battery energy storage systems (BESS).

This inauguration strengthens Chile's role as a pioneer in harnessing the solar potential of its regions and the Atacama Desert to develop energy storage battery systems ...

The SCF is providing Technical Assistance to a large-scale Battery Energy Storage System (BESS) in northern Chile's Antofagasta region to address solar energy curtailment and ...

Built by ContourGlobal - a KKR Group company - Quillagua is a solar power plant with a nominal capacity of
