Are green cellular base stations sustainable?

This study presents an overview of sustainable and green cellular base stations (BSs), which account for most of the energy consumed in cellular networks. We review the architecture of the BS and the power consumption model, and then summarize the trends in green cellular network research over the past decade.

What is Cape Cod Air Force station?

Cape Cod Air Force Station is the only land based radar site providing missile warning for the eastern coast of the United States and southern Canada against intercontinental and sea-launched ballistic missiles.

How do Cape phone numbers work?

Cape phone numbers are real mobile phone numbers--not VoIP numbers--so they work just like you're used to. You can also bring your existing number with you by porting it in. Most users experience a smooth,hassle-free transition,and our team is here to help if anything comes up.

Can Cape use my personal data?

We can't misuse data we never ask for. Cape doesn't require personal informationlike your name or Social Security number. We're the only privacy-first carrier that operates our own mobile core. This lets us control how your data is collected,handed,and stored,minimizing exposure and maximizing privacy.

Peek under the hood of Cape's mobile network to see how we've built a secure, modern telecom core from scratch. This post breaks down how we keep your data private and ...
