---

The first phase of the 1-million kilowatt photovoltaic project at China General Nuclear Power Group (CGN) clean energy base in ...

The green electricity generated by the new solar farm will be supplied directly to the neighboring Yunnan province in China, highlighting a growing trend of international energy ...

The first phase of the 1-million kilowatt photovoltaic project at China General Nuclear Power Group (CGN) clean energy base in northern Laos officially commenced on ...

This project is a step in advancing renewable energy efforts for both Laos and China. The solar farm, located near the Laos-China border, aligns with Laos's goal to increase ...

Construction has commenced on the first phase of the one-million-kilowatt photovoltaic project at China General Nuclear Power Corporation (CGN)'s clean energy base ...

Phase I of the solar PV project, with an installed capacity of 1 GW, is situated in the districts of Muang Xay and Namou in Oudomxay ...

Jointly developed by CGN and over 70 Chinese and Laotian enterprises, this initiative represents the first phase of CGN's clean energy base in northern Laos, which ...

CGN has launched the construction of Laos' first large-scale solar photovoltaic (PV) project. The project, part of the Northern Laos Interconnected Clean Energy Base, aims ...

This project is a step in advancing renewable energy efforts for both Laos and China. The solar farm, located near the Laos-China ...

The project, jointly constructed by the CGN and over 70 other Chinese and Laotian enterprises, is the phase I project of CGN's clean energy base in northern Laos that ...

Phase I of the solar PV project, with an installed capacity of 1 GW, is situated in the districts of Muang Xay and Namou in Oudomxay Province, northern Laos.

In September last year, CGN and the Lao government signed an agreement to jointly build a comprehensive clean energy complex in the Lao provinces of Oudomxay, ...
