Pharos Base Stations works seamlessly with TP-LINK dish and sector antennas to provide efficient PtP and PtMP data transmission. Pharos Base Stations also feature a built-in ...

Outdoor Integrated System 5G communication has the characteristics of poor high-frequency transmission characteristics, large network capacity requirements, and large network coverage ...

Up to 8% cash back. Pharos Base Stations works seamlessly with TP-LINK dish and sector antennas to provide efficient ...

Enhanced noise immunity and TDMA technology ensure consistent communication. Equipped with a powerful operating system and dual firmware, it provides flexibility and resilience.

This IoT base station supports multiple communication modes to servers (3G, Ethernet etc.) for flexibility to adapt to various scenes; multi-network hot backup is also available to improve ...

Dahua's DH-PFWB5-90n is 5 GHz base station that delivers high-performance and stable operation. This product combines an advanced radio core containing MIMO 2 x 2 technology ...

Key Features Large temperature range UV, impact and water protected IP55 rated housing Consists of base station and housing Up to 1,000 base stations Up to 4,000 handsets DECT ...

Capable of serving up to 64 active users at a download data rate of up to 150Mb/s, the Base Station delivers high speed, reliable, and secure 4G LTE connectivity for distances up to 9 miles.

Enhanced noise immunity and TDMA technology ensure consistent communication. Equipped with a
