Data and information about power plants in Turkey plotted on an interactive map.

Hitachi Energy opens a new ultra-low-carbon transformer factory in Turkiye to boost global supply, cut emissions, and meet growing power grid demand.

Demonstrating Hitachi Energy's commitment to sustainability, the new facility will be an ultra-low-carbon factory, reducing carbon emissions by about 95 percent.

Since the 775-megawatt power plant was commissioned in 2013, it has covered the increasing energy demand in the region and has supplied around 3 million households" demand ...

Demonstrating Hitachi Energy's commitment to sustainability, the new facility will be an ultra-low-carbon factory, reducing carbon ...

Astor Enerji has completed its solar power plant project in Ankara Bala, targeting an annual electricity production of 27.5 million kWh and savings of \$2.25 million.

In response to Turkiye's growing energy demands, ENKA has initiated a new investment for the development of a state-of-the-art natural gas combined cycle power plant in Kirklareli.

The most important power stations in Turkey are listed here. Turkey generates about 300 TWh of electricity per year.

From remote, small, temporary site power to base load multi megawatt power generation stations for utility power grids, we provide complete, customised and cost e_ective power generation ...

All operational coal-fired power stations over 50MW are listed below. Five plants were shut down at the end of 2019 to reduce air pollution, leaving total installed capacity at about 17 GW, with 1.3 GW under construction. However, government may continue subsidizing some of the most polluting plants in 2020. In 2019 almost 500 million lira was paid to them.

The funds will be used to expand the transformer facility by 45,000 sq m in the Dilovasi district of the northwestern province of Turkey, where production capacity is expected ...

The company plans to build a new state-of-the-art manufacturing plant in Dilovasi, located in northwestern Turkiye. This 45,000-square-meter facility will increase Hitachi ...
