What is the Broadband Plan of Cyprus 2021-2025?

The Department of Electronic Communications of the Deputy Ministry of Research, Innovation and Digital Policy announced the Broadband Plan of Cyprus 2021-2025 in November 2021. It is a roadmap that aims to strengthen and develop new infrastructure, technologies and connectivity services.

What is Cyprus' digital connectivity plan?

Cyprus' digital connectivity plan sets strategic objectives for 2021-2025 and includes legislative and regulatory interventions as well as practical support for the development of digital connectivity infrastructure.

Should Cyprus invest in FTTH & 5G infrastructure?

The Government of Cyprus encourages the market to invest in Fibre to the Home (FTTH) and 5G infrastructure by providing the incentives related to regulatory certainty and measures. Public investments can only be used in areas where the market fails to develop and should be carefully targeted, so that they are not a deterrent to private investments.

How will Cyprus implement the connectivity toolbox?

In the roadmap for implementing the Connectivity Toolbox, Cyprus plans to review the existing national framework in order to implement fast track procedures for granting permits and higher transparency of information.

Can the Tronycan communication base station support both 4G and 5G networks? Yes, Takashi, our communication base stations are designed to support both 4G and 5G networks, ensuring ...
