AGC's solar glass range includes high reflectivity solar mirrors as well as high transmission solar glass substrates (Sunmax) to be used for solar concentrators and solar receivers.

Now, picture hundreds of these springing up across an entire continent, from the sun-drenched plains of Spain to the industrial heartlands of Germany and the emerging markets of Eastern ...

In Venaus, Italy, it has built its first floating solar park as part of a hybrid plant, using double-sided photovoltaic modules to use the natural reflection of water to maximise power ...

Now, picture hundreds of these springing up across an entire continent, from the sun-drenched plains of Spain to the industrial heartlands of Germany ...

Alpha Generation owns and operates power generation facilities that are well positioned to provide reliable, secure, safe, and sustainable sources of power and meet the ...

At least six Eastern European nations will generate over 20% of their total monthly utility-supplied electricity from solar farms this summer, when regional solar radiation levels hit ...

AGC offers extra clear float glass products for a broad range of solar applications. Your single source: High-efficient float glass production, glass coating, glass processing as well as high ...

From initial discussions to grid connection in just six months: In November of 2023, joint venture Iqony Solar Energy Solutions (SENS) and LSG realized a new solar farm project ...

Major players in European solar development include Scatec, Lightsource BP, Gresham House, and Aquila
