-----  
What are container buildings?

Container buildings are demounted structures suitable for different usage purposes, which is one of the modular building systems products. They are produced in a short time in a factory environment ready for turnkey use. Thanks to their demounted structures, they are very easy to install.

What are container use areas?

Some of the container usage areas are as follows. They can be used as container house, summer house, winter house, vineyard and highland house for the lands. Also modular container buildings can be used in container villa design and production for more luxurious living spaces.

What is a sanitary container?

Specializing in temporary and permanent structures, we bring your idea to life. Sanitary containers (WC containers and Shower containers) are sandwich panel modules used in all construction sites and especially in the living bases of companies operating in the construction and mining sectors.
