"To meet the expectation of a BESS system that has high energy density, small footprint, simpler AC-side configuration, and flexible ...

With a capacity of 9MWh, it can charge 150 electric vehicles or power a German household for six years. The system supports both centralized and string PCS (Power ...

This isn't simply a larger container. Rather than building a single oversized unit that would trigger regulatory and logistical issues, CATL introduced a modular "two-in-one" ...

On May 7th, 2025, CATL has unveiled the world's first mass-producible 9MWh ultra-large-capacity energy storage system solution, TENER Stack, setting a new industry ...

CATL today unveiled the TENER Stack, the world's first 9MWh ultra-large capacity energy storage system solution set for mass production at ees Europe 2025, representing a ...

On the first day of the Smarter E show in Munich, CATL, the world's largest battery manufacturer, unveiled the Tener Stack, which it describes as the world's first 9 MWh ultra ...

Global battery giant CATL has raised the bar for large-scale energy storage solutions with the debut of its TENER Stack, the world's first 9MWh ultra-high-capacity system set for mass ...

"To meet the expectation of a BESS system that has high energy density, small footprint, simpler AC-side configuration, and flexible deployment, we bring the latest CATL ...
