Are outdoor solar lights a good idea?

By carefully mapping out your space, outdoor solar lights can make your yard or garden feel as comfortable as your indoor living areas. When surveying your exterior's square-footage, note any pathways that may benefit from better lighting. "Solar lights for lining walkways or driveways are fabulous for design and utility," Ag&#225;rdy says.

Should you put solar lights in your outdoor space?

As long as your solar lights can get a consistent charge over the course of the day, where you decide to place them can make your outdoor space feel like the best hangout spot in your home after dark. Find a landscape designer in your area with the AD PRO Directory, our network of AD -approved professionals.

How do I choose the Best Lighting for my yard?

Before choosing just any one for your yard, start by asking yourself how much brightness you need and if the light needs to be direct or spread out. Solar pathway lights guide you when walking at night, while mounted spotlights may have security monitors or be intended to highlight landscape features.

What are the best outdoor lights for outdoor spaces?

Our top pick for most outdoor spaces is the AloftSun Motion Sensor Solar Landscape Spotlights. We love these lights so much, we've tested them twice. Both times we found them to be durable, easy to use, and bright. We also love that these spotlights can detect motion from as much as 33 feet away, depending on the setting.
