When will 5G be available in Myanmar?

According to the GSMA website, 261 operators in 101 countries started to deploy a 5G network by January 2024, while MPT will be included as a 5G service provider in Myanmar. "We are trying our best to bring world-class communication technology to the Myanmar users.

Will MPT be a 5G provider in Myanmar?

Last year MPT has carried out High-Speed LTE expansion in Yangon and Mandalay and 5G trial will be one of MPT's initiatives in satisfying customers. According to GSMA website, as of January 2024, 261 operators in 101 countries had launched commercial 5G services and MPT will be one of the 5G service providers in Myanmar.

Does Myanmar have a broadband network?

Port further growth in Myanmar's broadband services. It is evident that the vast majority of Myanmar's mobile towers are not connected to terrestrial transmission or backhaul networks. Ideally, such backhaul networks should be fibre optic cable networks given their superior capacity.

What is the telecom market like in Myanmar?

Myanmar's telecom market is dominated by four major mobile operators: Myanmar Post Telecommunications (MPT), Atom Myanmar (formerly Telenor), Ooredoo Myanmar, and Mytel. Competition is fierce, with over 95% 4G population coverage achieved. Operators are now diversifying their services into FTTH and e-commerce to drive further growth.
