Crafted with heat-treated safety glass, our photovoltaic glass provides the same thermal and sound insulation as traditional options, flooding spaces with natural light. Perfect for facades, ...

First Solar and NSG share a long-standing strategic partnership. Manufactured with the online coating technology, in which a conductive oxide on the glass surface is formed ...

The CPS integrated glass project needs a CAD 880 million (\$639 million) investment to set up the plant and to develop a silica sand ...

In mid-March 2024, Canada's Silfab Solar, a high-efficiency module manufacturer with plans to expand into South Carolina, said it would source glass from US-based PV panel ...

In mid-March 2024, Canada's Silfab Solar, a high-efficiency module manufacturer with plans to expand into South Carolina, said it ...

The NSG Group offers a range of specialised glass and coated glass products used in all of the leading solar energy technologies, including thin film photovoltaics, crystalline silicon ...

The facility would use recycled materials from retired solar panels to produce new solar glass, a "first-of-its-kind" according to the company at the time.

NEXT Energy Technologies upgraded its pilot production line to produce 40-by 60-inch laminated transparent power-generating ...

With this new production line, NSG and First Solar are laying the foundation for a future focused on energy innovation and development. Architectural glass specialist NSG ...

In the months following the passage of the One Big Beautiful Bill Act (OBBBA), the solar industry has been adapting to new and not fully settled policy. Several uncertainties still ...

NEXT Energy Technologies upgraded its pilot production line to produce 40-by 60-inch laminated transparent power-generating windows featuring its organic photovoltaic (OPV) ...

Crafted with heat-treated safety glass, our photovoltaic glass provides the same thermal and sound insulation as traditional options, flooding spaces ...
