The WBIF's investment in Phase 2 of the Bogdanci wind park, with a grant of 9 million euros, is proof of a long-term commitment and partnership -- both with KfW and with ...

Driving this surge was a 26.3% increase in electricity from hydropower plants and a 5.4% rise in wind power. Solar power generation also saw a substantial boost of 21.7%.

Driving this surge was a 26.3% increase in electricity from hydropower plants and a 5.4% rise in wind power. Solar power generation ...

This report, "North Macedonia Renewable Energy Market - 2025 Update", has been produced by Invest In Network as part of the Energy Week Western Balkans 2025 framework.

As construction is set to begin in early 2026, North Macedonia is poised to make a substantial impact on the region's energy landscape and set an example for sustainable ...

We're breaking down how wind energy storage works, why Skopje's geography is a goldmine, and what's stopping the city from becoming the Balkans' renewable energy hub.

A city where sudden power outages become as rare as unicorn sightings, and solar panels work overtime even after sunset. That's the promise of the Skopje Energy ...

According to the Energy Regulatory Commission (ERC or RKE) of North Macedonia, a 44 MW wind power plant has entered trial operation in Demir Kapija. Almost ...

The wind farm, to be located in the country's southeast, will be one of the largest in the Western Balkans, with a capacity to generate up to 400 megawatts of renewable energy.

North Macedonia on Wednesday marked the start of construction of its biggest-yet wind farm, a EUR430 million investment by Luxembourg-based company Alcazar Energy, ...

Due to North Macedonia's grid connections with Greece, Bulgaria, Serbia and Kosovo, the project will help to both reduce energy shortages and support the transition to ...
