We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

Equipped with automatic fire detection and alarm systems, the 20FT Container 250kW 860kWh Battery Energy Storage System is the ultimate choice for secure, scalable, and efficient energy ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ...

This containerized system is designed for hybrid integration with existing grid, solar, or generator sources. It enables energy optimization while reducing ...

This 250kW off-grid solar storage system is built for factories, farms, schools, and commercial projects that need reliable power without depending on the grid.

This containerized system is designed for hybrid integration with existing grid, solar, or generator sources. It enables energy optimization while reducing diesel dependence and ensuring round ...

In general, it includes solar panels, grid-connected inverter, the solar power will be converted the electricity power to appliance working directly. When ...

Bypass cabinet is designed to be used together with bidirectional battery inverter and PV inverter to realize seamless transfer between on and off grid mode automatically.

250 kW/575 kWh BESS System: Efficient and eco-friendly solution for on-grid and off-grid applications,
