---

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Introduce power to any location with our Solar Energy Container. It's a transportable, fast-to-deploy source of green energy, housed in a standard-sized container for global mobility.

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

A mobile solar container is a fully prefabricated solar array container solution designed to provide flexible, off-grid solar power. The MEOX mobile solar container is a prime example, designed ...

Ideal for temporary power, remote locations, or emergency backup, these all-in-one solutions combine high-efficiency solar generation with integrated storage for rapid deployment in ...

Its portability and foldability make it ideal for temporary or emergency power needs, such as construction sites, outdoor activities, ...

A mobile solar container is a self-contained, transportable solar power unit built inside a standard shipping container. It includes solar panels, inverters, batteries, and all ...

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada ...

Its portability and foldability make it ideal for temporary or emergency power needs, such as construction sites, outdoor activities, military operations or disaster relief. In addition, ...

These offer a reliable and constant power supply, and thanks to increasingly advanced systems, noise and exhaust emissions are kept within limits. Only the highest quality components are ...

Discover the world's leading foldable solar container with 40% higher energy density. Solarfold(TM) by Sunmaygo offers quick deployment & 70% lower costs than diesel.

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.
