-----

This article examines the role of solar containers in earthquake response, their deployment benefits, and field deployments of how they provide clean and reliable power ...

Given Pakistan's history of severe earthquakes, there is an urgent need for construction materials that are not only safer but also ...

Pakistan's capital is Islamabad. The most important port, the largest city and the biggest economic center of the country is Karachi. Pakistan's second-largest city is Lahore.

The foldable photovoltaic container adopts a modular design, with a simple and fast installation process, and can be quickly put into use. This plug-and-play feature makes it ...

This study, using a geospatial MCDA approach, identified eight suitable lakes and dam reservoirs for floating PV development, highlighting the significant potential of this ...

Pakistan is a parliamentary federal republic in South Asia, with a population of over 170 million people. Pakistan held successful elections in February 2008 and has a coalition government.

Pakistan is a populous multiethnic country of South Asia. With a predominately Indo-Iranian speaking population, Pakistan has historically and culturally been associated with its ...

Pakistan is home to some of the highest mountains in the world and the oldest sites of antiquity. Its monuments, landscape, and architecture tell the stories of diverse and multifaceted ...

Given Pakistan's history of severe earthquakes, there is an urgent need for construction materials that are not

only safer but also more affordable. Engineered ...

Modern seismic proof buildings use a range of dampers to absorb and dissipate earthquake energy: Viscous Dampers: Filled with fluid, they ...

Our team specializes in designing earthquake-resistant solar-plus-storage systems tailored to your geographical risks and energy needs. Whether you're safeguarding a home, ...

One of the widely adopted methods to create earthquake-resistant buildings is to "pull" the structure's foundation above the ground. The method includes creating the building's structure ...
