RCT Group unites its solar, battery-storage, hydrogen, and finance companies under one roof, applying precision German engineering and manufacturing to deliver bankable, end-to-end ...

The high-quality power storage units from RCT Power are among the most efficient battery storage systems on the market and have already received several efficiency awards.

The high-quality power storage units from RCT Power are among the most efficient battery storage systems on the market and have already received ...

With a RCT Power storage systems you store your solar power locally and use it whenever you need it. Controlling energy costs and safeguarding ...

Detailed profile including pictures and manufacturer PDF.

The RCT battery is a resource-saving and safe solution for use in private residential buildings. The modular system guarantees flexible retrofitting, ...

The Power Battery 1.9 kWh is a compact and modular LiFePO4 storage solution, designed for scalable PV systems. With expandability up to 6 units, high efficiency, and smart monitoring ...

The RCT Power Storage AC uses high voltages keeping the charging and discharging currents low. This approach minimises the temperature cycles in the battery resulting in significantly ...

With a RCT Power storage systems you store your solar power locally and use it whenever you need it. Controlling energy costs and safeguarding you from power outages.

The RCT Power Battery stores your solar energy for use when the sun is not shining, using especially safe and environmentally friendly LiFePO4 battery cells. The modular system can ...

The RCT battery is a resource-saving and safe solution for use in private residential buildings. The modular system guarantees flexible retrofitting, thus allowing optimal adaptation to the ...

RCT Modules is the newest member of the RCT Group, founded to meet growing global demand for high-performance photovoltaic modules.
