-----

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

The new solar park was opened on September 6 in the presence of the BCT shareholders from the Maltese holding "Mariner" and the management of the Freeport of Riga.

The new solar park was opened on September 6 in the presence of the BCT shareholders from the Maltese holding "Mariner" and ...

Baltic Container Terminal (BCT), which operates in the port of Riga, has invested more than EUR1 million (US\$1.1 million) in the construction of a new solar panel power plant, ...

Lithuania's SNG Solar is set to build a 100 MW solar plant in the port of Riga, Latvia. Upon completion, the facility will be one of the largest solar projects in the Baltics.

The Port of Riga is actively developing in the direction of "green" energy: solar power plants are already operating at the terminals "Kronospan Riga" and "Baltic Container ...

Lithuania's SNG Solar is set to build a 100 MW solar plant in the port of Riga, Latvia. Upon completion, the facility will be one of the ...

The project provides for the installation of solar panels, renewable solar electricity production and storage, as well as hydrogen and alternative fuel production.

The project will involve installing solar panels, connecting them to a 110 kV line, and building a high- and
