Gothenburg has embraced this idea and installed hundreds of solar-powered streetlights. These streetlights require zero maintenance and are more reliable than traditional streetlights.

This medium transparency amorphous silicon glass will be installed as a curtain wall and it will generate more than 3,000 KWh every year ? At the same time, thanks to its 61 mm double ...

Onyx Solar's amorphous photovoltaic glass renovated the facade of the Frolunda Culture House in Gothenburg, Sweden, with its installation as a curtain wall solution.

In Gothenburg, researchers and engineers are not just stopping at creating innovative designs but are tirelessly working to improve the efficiency of solar cells.

PROJECTS BY ONYX SOLAR Explore below some of the buildings that have integrated our innovative PV building materials and see how we're ...

Onyx Solar's amorphous photovoltaic glass renovated the facade of the Frolunda Culture House in Gothenburg, Sweden, with its installation as a curtain wall solution.

Onyx Solar's photovoltaic solutions for curtain walls and spandrels combine energy generation with sleek architectural design. These systems ...

PROJECTS BY ONYX SOLAR Explore below some of the buildings that have integrated our innovative PV building materials and see how we're revolutionizing sustainable architecture ...

Onyx Solar's photovoltaic solutions for curtain walls and spandrels combine energy generation with sleek architectural design. These systems transform traditionally unused building surfaces ...

This project involved Soltech Energy installing a 60 kW solar facade on the wall of a car park in Sweden, which houses 300 electric charging points. It features a steel structure to facilitate air ...

Onyx Solar's amorphous photovoltaic glass renovated the facade of the Frolunda Culture House in Gothenburg, Sweden, with its installation as a ...

Midsummer has collaborated with several organizations in Gothenburg, including the Volvo Group, to install solar panels and create a more sustainable transport system.
