The project blueprint covers every critical aspect of large-scale solar deployment, including PV optimisation, hydrology studies, procurement support, and engineering services.

Instead of centralised storage, Sri Lanka can unlock hidden capacity in existing rooftop systems by encouraging households to install subsidised batteries supported by a ...

The project establishes Sri Lanka's largest non-government-funded battery energy storage system (BESS), powered by solar ...

ADB said yesterday (25 November) that the US\$200 million loan will fund the Power System Strengthening and Renewable Energy Integration Project, which includes the ...

Hayleys Solar and BYD introduce advanced battery and inverter systems in Sri Lanka to boost energy security, savings, and ...

Sri Lanka's tender proves batteries have moved from "nice-to-have" to core infrastructure. Whether it's BYD or ABB winning contracts, one thing's clear: solar without ...

SgurrEnergy has secured the contract to develop Sri Lanka's first 100 MW solar photovoltaic project with a 12 MWh battery energy storage system (BESS). It will be ...

A collaboration between the private sector and the Ceylon Electricity Board (CEB), the project incorporates
