What is a 40 ft container home with solar panels?

The 40' Off Grid Container Home with Solar Panels is designed to be versatile and customizable. You can use it as a cozy home, a vacation home, a backyard office, or anything in between. Its modular design allows you to add more containers to expand your living space. The home also has large windows to provide ample natural light and ventilation.

What is a solar panels on shipping container?

It not only transports the PV equipment, but can also be deployed on site. It is based on a 10 - 40 foot shipping container. Efficient hydraulics help get the solar panels ready quickly. Due to its construction, our solar panels on shipping container offers unmatched flexibility and maneuverability.

How long does it take to ship a solar container?

Standard solar container models can be manufactured and ready to ship in as little as 4-6 weeks. Customized configurations can take up to 8-10 weeks, with shipping times varying by destination. Do you offer after-sales support for mobile solar PV containers?
