Ongoing investments in battery storage systems will also pave the way for new wind and solar plants. In Chile's north, Spanish company ...

One of the largest battery storage projects in South America is being built in the Chilean Atacama desert.

Since 2022, the plant Diego de Almagro Sur operated by the electric utility company Colbun S.A. has been supplying the region with ...

Developed by British company Contour Global, the plant combines 452,000 solar panels and 267 storage modules. It delivers 200 ...

Set to be built in seven phases in total, the Oasis de Atacama complex will comprise 2GW of solar PV and 11GWh of battery storage in ...

Located in the Atacama Desert in northern Chile, this megaproject will have a total capacity of 2 GW of photovoltaic generation and 11 GWh of lithium-ion battery storage, ...

The plant contains Battery Energy Storage System (BESS) technology, and uses lithium batteries to store the renewable energy generated by the Coya Photovoltaic Park (180 ...

Developed by British company Contour Global, the plant combines 452,000 solar panels and 267 storage modules. It delivers 200 megawatts of power for 6.2 hours after ...

Since 2022, the plant Diego de Almagro Sur operated by the electric utility company Colbun S.A. has been supplying the region with solar power using SMA technology.
