Togo, like many sub-Saharan African countries that do not produce oil, depends mostly on imports for its electricity supply. This dependence could be extremely reduced if the share of ...

The President of Dangote Group, Alhaji Aliko Dangote has revealed that the construction of Africa's largest oil refinery required the importation of ...

Fuel imports, despite Nigeria's vast crude oil reserves, have been necessary due to insufficient local refining capacity--a problem the Dangote refinery wishes to solve.

The Dangote oil refinery is expected to help Nigeria resolve its oil export-import paradox. Indeed, the country relies heavily on refined oil imports though it is an oil-exporting nation.

The President of Dangote Group, Alhaji Aliko Dangote has revealed that the construction of Africa's largest oil refinery required the importation of 150,000 containers, with the majority...

Almost all of the crude oil produced in the world is refined into other products before being used. These include fuels for automobiles, ships and aircraft, as well as those used for heating.

The President of Dangote Group, Alhaji Aliko Dangote has revealed that the construction of Africa's largest oil refinery required the importation of 150,000 containers, with ...

It will produce gasoline, diesel, jet fuel, and various other refined petroleum products. The Dangote oil refinery is expected to help Nigeria resolve its oil export-import ...

In conclusion, this study presents a detailed techno-economic analysis and optimal design of a hybrid
