What is an Uninterruptible Power Supply (UPS)?

An Uninterruptible Power Supply (UPS) is a battery backup power system that provides reliable power to your grid-powered applications in case of an unplanned outage, blackout, brownout, or power dip. Solis Energy's UPS keeps your devices on short-term power until regular grid power is restored.

Why do you need a solar container?

Deploy power in hours Perfect for remote locations, construction sites, events, and emergency response situations. Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.
