What is the largest battery testing centre in Italy?

For testing, the 8,000-square-metre centre has 32 climate-controlled test cells - eight of which are smaller and designed for battery cell testing, and 24 of which are walk-in and can accommodate entire battery packs. According to the company, this makes it "the largest battery technology centre in Italy and one of the largest in Europe".

Does Intertek have a battery facility in Italy?

This new state-of-the-art facility in Italy complements Intertek's existing European battery centres of excellence in the Nordics, UK, and Germany, allowing the company to bring its expertise from more mature battery markets to Italy and the wider South Europe region.

What does a battery technology centre in Turin do?

More than 100 employees at the battery technology centre in Turin will perform and monitor climatic stress tests, life tests, the development and calibration of software for battery management systems, and the degradation of batteries and cells for analysis and benchmarking.

Where is Intertek battery Xcellence centre located?

Mestre, Italy: Today Intertek, a leading total quality assurance provider to industries worldwide, unveiled its new Battery Xcellence Centre in Mestre, Italy.
