-----  
How many base stations are there in Fiji?

Total number of base stations will increase from the current 390 to more than 600 base stations around the country. Almost all existing and new base stations will be providing 4G+ coverage. This will make Vodafone by far the largest 4G+ mobile network in Fiji covering 96% of the Fijian population.

Which telcos are in Fiji?

Considerable investment has been made by the Fijian mobile operators in recent years. These telcos include Digicel Fiji, Vodafone Fiji, and Telecom Fiji. Notably, LTE now accounts for the largest share of connections in the mobile segment. LTE networks provide more than 95% population coverage, and full coverage is anticipated within a few years.

Who owns Telecommunications in Fiji?

Fiji's main telecommunications operators including Vodafone, Telecom Fiji, and Fiji International Telecommunications Ltd., are owned by Amalgamated Telecom Holdings (ATH), which in turn is majority owned by the Fiji National Provident Fund.

Which Fiji mobile network has the largest 4G+ coverage?

Almost all existing and new base stations will be providing 4G+ coverage. This will make Vodafone by far the largest 4G+ mobile network in Fiji covering 96% of the Fijian population. Significant progress has been made on the upgrade since the announcement in August last year.
