Are there electrical outlets in Kuala Lumpur?

No, the electrical outlets in Kuala Lumpur are different from those in the United States. In Kuala Lumpur electrical outlets of type G are used, while the United States has electrical outlets of types A & B. Do I need a travel adapter for Kuala Lumpur? The electrical outlets and power plugs in Kuala Lumpur are of type G (see images).

What type of plug does Kuala Lumpur use?

Kuala Lumpur uses power outlets and plugs of type G. Take a look at the picture below to see what this plug and power socket looks like: Doesn't look familiar? Do the outlets look different in your country? You'll need a power plug adapter.

Do I need a voltage converter in Kuala Lumpur?

This is the case in most of Europe, Australia, the United Kingdom and most countries in Africa and Asia. If the standard voltage in your country is in the range of 100V-127V (which is most common in the US, Canada and countries in South America) you might need a voltage converter in Kuala Lumpur. The standard frequency in Kuala Lumpur is 50Hz.

Does a laptop charger work in Kuala Lumpur?

In Kuala Lumpur, the standard voltage is 240V and the standard frequency is 50Hz. Most laptop chargers are designed to be compatible with a range of voltages (dual voltage), so they should work with outlets in Kuala Lumpur without any issues.
