We are one of the first companies with the authority of import-export since 1998. Till to now, we exported to more than 87 countries.

What is a solar container?

Solar container explained: What are mobile solar systems? The Solar container represents a grid-independent solution as a mobile solar plant. Especially in remote areas it can guarantee a stable energy supply or support or almost replace a public grid with strong power fluctuations, as well as diesel generators that are used.
